

Fiber Optic Installation, I-355 Extension

Owner – Illinois State Tollway Authority (ISTHA)

Location – Southwest Suburbs of Chicago, IL

Contract Value - \$2,600,000

Completion Date – November, 2007

- Installation of 16 miles of conduit and fiber optic cable for the new I-355 Tollway Extension between I-55 and I-80.
- Installation of communication equipment enabling all IT systems to communicate with ISTHA main offices.
- Splicing and termination of fiber cable into Tollway plazas.
- Project was completed with the coordination of 7 other mainline contracts requiring large scale logistical coordination.
- Project was completed ahead of schedule and contributed to a successful opening of the new extension.
