

20” Recycled Water Line Extension - Phase 1

Owner – City of Dallas

Location – Dallas, Texas

Contract Value - \$2,800,000

Completion Date – May 2011

The City of Dallas designed a recycled (grey) water line to service the water needs of Cedar Crest Golf Course, a City owned facility. This project is the first of two phases extending from Cedar Crest Golf Course to the City Zoo.

- Installation of 16,000 linear feet of Reinforce Concrete Cylinder Pipe (RCCP) along portions of Southland Ave, Illinois Ave and Ewing Ave.
- Installation of 8 gate valves with 60” diameter manholes, 4 blowoffs with 72” diameter manholes and 9 flush points at various locations along the water line.
